

## **WHAT DO WE LOVE TO DRINK AT TAVLIN?**

### **LIMONANA**

**4.5**

Limonana is a type of lemonade made from freshly-squeezed lemon juice and spearmint leaves. It's a popular summer drink in Israel, Egypt, Cyprus, Jordan, Lebanon and Syria and a popular choice here, especially on a hot summer's day.

### **ARAK**

**5**

Arak is distilled alcoholic drink favoured in the middle east. Commonly served in social settings and gatherings, the drink is famous for its potency and for the translucent milky-white colour it turns when water is added to it. Arak is typically made from two main ingredients - grapes and aniseed. They produce a liquorice taste when crushed and that is the characteristic flavour of this alcohol. The strength of the drink produced its nickname "the milk of lions," in the Middle East.

### **LIMONARAK**

**7**

Our delicious limonana with a shot of Arak, cannot go wrong with this one!

### **GOLDSTAR BEER**

**8.5**

Goldstar is a classic beer in Israel, it's the local beer, like the VB of Israel but tastes a lot better! It is marketed as a dark lager beer, though it is amber in appearance. It was the first ever Israeli draft beer and is currently the top selling beer in Israel.

### **MALT BEER**

**4**

Malt Beer is a great non-alcoholic option and malt is loaded with B-vitamins, lots of minerals and some fibre and protein. Malt about half as sweet as normal sugar and generally used as a healthier alternative sweetener. Malt beverages are also rich in calcium.

### **GRAPE JUICE**

**4.5**

A classic childhood drink in Israel but do not be fooled it's a favourite with adults too. A delicious, sweet beverage that will keep you wanting more.
